

TYLER SPECIAL OPERATIONS PLATFORM

- Quick Insertion
- Fast-Rope/Rappel Option
- Safe Dive Team Deployment
- Emergency Rooftop Evacuation
- External Cargo Rescue Litter
- Rapid Installation (No tools required)

designed for
airborne law enforcement

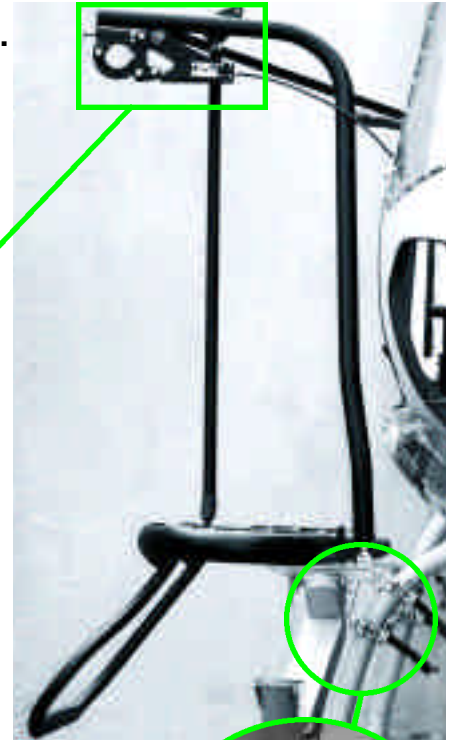

TYLER SPECIAL OPERATIONS PLATFORM

Designed to mount quickly to the helicopter's skid cross tubes. Unique mounting clamps make installation user-friendly requiring no modification to the airframe. Once initial set up is complete, it takes less than 5-minutes to install the cargo platforms (no tools required). Additionally, when the platforms are installed, they can be stored in a locked-down position for either flight or parking.

Technical Specifications:

Platform Assembly:

air frame
longitudinal supports
anch Supports
ount Brackets
roximate Weight
atform Load Capacity

3" dia. 4130 chromemoly tubing with 0.058" wall
1" dia. 4130 chromemoly tubing with 0.049" wall
7075-T6 aluminum.
7075-T6 aluminum.
60 lbs
516 lbs.

Fast-Rope Assembly:

ramework
elease Mechanism
roximate Weight
ast Rope Load Capacity

1" & 2" dia. 4130 chromemoly tubing, wall .060 to .090"
7075-T6 aluminum.
25 pounds.
500 lbs.
